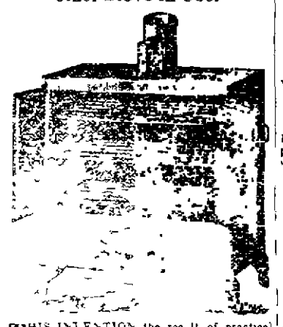
A New Thing.
PORTABLE OVEN,
WARRANTED TO
Cook with Less Fuel than any other Stove in Use.



THIS INVENTION the result of practical experience is confidently presented to public as a perfect combination of economy safety and utility in the management of cooking and can be used in the unrivalled manner in which it does its work to any other invention of the kind now in use.
It does, however, every thing required in a Cooking Stove in a manner fully equal to the old Stoves with which we have been familiar, and never invented. It will roast at the same time two different kinds of meats, bake bread and each piece will be done to perfection, free from the gases arising from the meats as those gases are let off through a pipe at the top.
The baking department in this Oven is with the greatest regularity governed by dampers at the door the perfect control of the heat.
In addition to economy as the cooking is entirely in the Oven. The Oven is manufactured being a cube and constructed with a charcoal furnace at the side, which a small quantity of fuel will keep for hours.
The material we use never burns out and is somewhat cheaper.
The Oven is all of cast iron for drying, all temperatures and for baking for a family.
We warrant it to give entire satisfaction.
We have a number of recommendations from families who have used them and be pleased to show them to those desirous of purchasing.
Our Oven is suitable for the use of Steamers and Hotels.
Our assortment of Stoves,
Hot Air Furnaces,
is now full and complete and on reasonable terms.

This great and popular preparation is now offered to the public and best articles in the world for the HAIR
It imparts a richness and brilliancy of color to the hair, invigorates, embellishes and renders it soft and pliable, and has proved by many years experience to be the best preventive of baldness and premature decay of the hair ever discovered. It has stood the test of time and use and all other preparations have failed
Its Invigorating Properties are truly wonderful. Many persons who have used it for years say they cannot do without it. Ministers of the Gospel, Lawyers, Merchants, Editors, Physicians, Statesmen, Ladies, Gentlemen, and Children, all speak in the highest terms of its virtues
Sold by all Druggists and Fancy Goods Dealers throughout the United States, Canada, and South America, and by Agents in every city in the civilized world

A New Development of Modern Democracy.

The downward progress of modern democracy was never better illustrated than by some comments which the *Bangor Union* makes upon an article of ours published on Friday last Referring to the fact that the Republican party has even now many sympathizers at the South, we said

It will within a few years become a power "able to cope with pro slavery even in the "northern tier of slave States themselves— "wielding its force in favor of a system of "gradual emancipation, and at no distant day "triumphing in Missouri Kentucky, Virginia, "Maryland and Delaware

I will scarcely be believed that the new Union organ of the democratic party takes exception even to the idea of *gradual* emancipation It is nevertheless true that it does denounce the Whig and Courier as a fanatical and vicious abolitionized sheet for free dom, for expressing this belief that the Republican party is the organization in the South as a gradual emancipation party The following is the comment of the Union

The Whig puts the Republican party in its true light when it seeks to effect emancipation in several of the Southern Slave States We have long suspected that the Whig is under the absolute control of the Abolition wing of the freedom loving party and hence the necessity for a new Republican organization in this city for the more liberal and sectional wing But that the Whig has become so utterly abolitionized as to *proclaim*—it the object of its party organization is to interfere with slavery in the States we did not suppose The idea that the Black Republican party has any existence, or ever will have any, south of Mason & Dixon s line is decidedly rich

Thus we see that even gradual emancipation as a ceremonial or fanatical interference with slavery in the eyes of modern democracy—a high crime against such 'Union ominations as are presented by the Bangor Union Thus we see that gradual emancipation has at length become in every abolition, in the view of even *northern* democracy The shows the progress of the party, and is one of the most alarming signs of the strong hold and absolute control which the slave power has upon the whole machinery of the democratic party— The very same leaders and exponents of northern democracy who a few years ago were advocating the *Missouri proviso* and denouncing the repeal of the Missouri Compromise with a good show of honest independence and free and sentiment are now ready (as we see above) to denounce even the idea of gradual emancipation as wild fanaticism and appear to be fully wedded to eternal slavery The comments of the Union are most significant of the effect of Buchanan s election, and of the subsequent and consequent enunciation of the Dred Scott doctrines of the Southern Judges The sentiment and creed of the party now is that a nigger is not a man, and that he ought to be held in eternal slavery, and therefore that even gradual emancipation is anti democratic How different this democracy and unionism of the Bangor Union from the sentiments and actions of Henry Clay and Thomas Jefferson who were both of them earnest laborers for the emancipation of the slaves and who lived and died in the earnest wish to have accomplished.

The Union s views of the idea of Republicanism at the South, and cites the apparently small Republican vote at the Presidential election in the S ates we have named The Union is guilty however, of concealing the fact that the emancipation party in those States (which we assume is to become the Southern Republican party,) voted at the Presidential election for *Fillmore* instead of Fremont, as only by so doing they could make their votes possibly effective against Buchanan, who was the pro-slavery and anti emancipation candidate.

We think the Union's sneers at a Southern Republican party may be turned to alarms before another Presidential election has passed. There are many things which show a strong emancipation feeling The free labor movement in Missouri is steadily progressing, and has just given to Mr Rollins, the anti-democratic candidate for Governor, a large proportion of the fifty or sixty thousand votes he has received, and if he is elected he owes it to the free labor party Then the movement now making to inaugurate a scheme of "compensated emancipation," or a proposition to devote the proceeds of the public lands to the extinction of slavery, and for which a convention is soon to be held, under a call from Elihu Burritt, favored by some southern men—shows the indications of the times, as also the favor with which Eli Thayer's free labor colonization in Virginia, is received The party which makes slavery its abhboleth, would do well to think twice before despising all the signs which are abroad

As to the Union s talk about the 'abolition and 'liberal' wings of the Republican party, and the imaginary antagonism of the two, it is all *bosh*, and the Union knows it. It would pay better for the editor to look after the troubles in his own domicil. We have pretty *straight* information that the sale of the types and presses of the defunct Bangor Journal did not convey the Straight Whig voters over to modern democracy, as hoped and expected. With the exception of those who are subsidized like Daniel Seaborn, they rather decline to receive the trade-mark of the plantation democracy The operation of buying the Journal didn t altogether pay—as may, perhaps, be seen hereafter

Border Ruffian Falsehood.

"It appears from a recent disclosure of one of the "Sons, made in the Bangor Journal, that a trade took place at Portland between the "Sons' on the one side, and the "Republican State Committee, on the other side '

Age of August 6th

The above statement appears in the Age this week, introductory to a communication which first appeared in the Bangor Journal — We saw the article when it first came out in the Bangor paper, but so clearly absurd and untrue did it seem on its face, that we did not deem it necessary to give it the slightest attention So far as the Republican State Committee is concerned we pronounce it a falsehood throughout, in its statement and implications At the writing of this, the *Republican State Committee has not met in Portland for more than ten months* Its other statements are equally false

That the communication is false in what it declares respecting the Sons of Temperance we have the testimony of active leading men of that organization, who pronounce its statements without the shadow of foundation No Committee of the Sons of Temperance has asked a conference with the Republican State Committee, and none has been had —*Kennebec Journal*

THE LAWS OF BUSINESS FOR BUSINESS MEN *Mr Editor* I have been examining with some care and a deeper interest, this work by Theophilus Parsons, compiled principally from his Treatises on the Laws of Contracts, and on the Elements of Commercial Law, and wish to say of it, that I deem it pre eminently the best work for the purpose intended that I have ever met It is not only fitted for those to whom it seems addressed, but invaluable to every individual in every community who can read and think and I can but hope it will occupy a prominent place, not only in every library, but in every public and private school—believing it to be a book which no condition of life can render useless, which may contribute to the advantage of all who make or receive laws—of all who buy or sell—of all who wish to keep or improve their possessions—of all who desire to be rich and all who desire to be wise

EVACUATION OF LAWRENCE —It will be seen by the despatches of this morning that Governor Walker has ignobly evacuated Lawrence, with all his forces, leaving the awful "treason' and rebellion of the citizens to flourish with impunity The redoubtable Governor was furnished with an excuse for taking off his troops by a report opportunely received by himself that a large body of Cheyenne Indians had attacked Fort Riley

POROUS SKIN FOR BOOTS.—At a recent industrial exhibition of one of the London societies, among other novelties, was some curried leather from the skin of the white porpoise It seems to possess the essential requisites of toughness and softness, and has been considered superior to the skins of land animals, the price is the same as that of the best calf skin, but a sample pair of boots shown, is stated to have worn out several soles

[We trust then that the porpoises may speedily be skinned—for the boots now manufactured "wear out' nothing but themselves and the patience and pockets of the wearers. Besides, we want to save all the calves to make fat cattle of]

MR EVERETT'S ORATION. Our citizens will remember that the oration of Hon. Edward Everett upon the Character of Washington, will be delivered this (Monday) evening, at Norombega Hall. It is an occasion which few will desire to miss

RECOVERY OF GOODS —City Marshal Boardman returned yesterday from a successful exploration on the track of Mr. William S Glavins, who was caught on Sunday last in a burglarious operation in the clothing store of Mr Sidney Davis of this city. It seems that Glavins has carried on an extensive business in stolen goods—having his depot at Rockland and selling mostly in a peddling way among the inhabitants of the adjacent islands Mr Boardman took possession at Rockland of a trunk full of books, wallets, pencils, razors and fancy articles, part of which are recognised by Mr W F Stanwood of this city, as his property The Marshal went also to Dix island, near Rockland, where he recovered a large lot of cloth and clothing, part or all of which we believe belonged to Mr Davis He found many places where Glavins had made sales of clothing, but where the garments had been worn any time they could not of course be identified. The rogue seems to have made a regular business of his plundering operations. His talents and industry will probably be made available in other ways at a public institution in Thomaston

[Since writing the above, we learn that the Marshal found six or seven brass and iron door keys in the bottom of the trunk They appear to be store keys and were probably stolen from doors in this city and elsewhere It any person has lost a key, it would be well to call at the Marshal s office One of the keys has already been identified as belonging to the store of Mr Wm A Dresser The value of the goods in the trunk was $250 or $300]

A CASE OF NEEDLE SWALLOWING —Dr Seavey recently extracted a needle nearly two inches long, from the back of a little girl of six years of age, daughter of Mr William Leeyitt on Washington street, in this city The needle was swallowed more than a year ago, and was found under the flesh, between the seventh and eighth ribs The child has been troubled with "an affection in the back for the past six months and it was thought she had the spinal complaint It appears that the circumstance was not known to the parents, or had been forgotten

STABBING AFFAIR A quarrel took place Saturday afternoon between two Irishmen, named John Shaw and Austin Marshall, in which the latter stabbed the former severely in the abdomen The wound was dressed by Dr McRuer, and from appearances yesterday the man was likely to recover

THE MINERAL SPRING —The mineral spring near the termination of the Webster road just beyond Barkerville, has been analysed by Dr Hamlin and found to be of some value, as it belongs to the sulphurous class, and is stronger in its impregnation than the Togus waters at Augusta

It rises clear and pure from the green sward in the meadow, and flows with considerable volume into a brook close by The little dell in which the spring appears is beautifully situated and might easily be made a pleasant place of resort Nature has provided it with a fringe of forest, and disposed here and there graceful elms over the narrow surface of meadow through which the brook meanders

PICTURE FRAME WARE ROOM We would call attention to the Picture Ware Room of Mr Dakin, just below the Bangor House — He has just fitted up adjoining his manufactory a convenient ware room, where may be found a large assortment of gilt frames and framing material, mirrors elegant steel and colored engravings, &c Mr Dakin continues the business of manufacturing frames to order

HAMPDEN ACADEMY —We call attention to the advertisement of this excellent seminary of learning, of which we understand a new catalogue is out, but is not yet received by us The fall term commences on Monday, Sept 7th The arrangements of the Female Department are very efficient, giving one of the best opportunities in the State for young ladies to acquire a good education, and at a very moderate cost The young ladies' diplomas at graduating are impressed with the seal of the institution, containing the coat of arms of the celebrated English patriot, John Hampden, for whom the town is named

The Eastport people have been improving the fine weather by excursions to Boyden's Lake, chowder parties at Gove's Point, and moonlight sailings about the harbor The Sentinel man records them all, but we have no doubt that he most affects the chowder parties The moonlight sailings are too unsubstantial for him, but take first rate with the young ladies He prints some verses that he says some *chowder head* has been writing about the chowder parties They are no subject for poetry.

WIND BOATS INVENTED IN MAINE THIRTY YEARS AGO —The Boston Courier having published a statement that Mr. Carbin of Cuba had proposed a new system of propelling vessels by applying the motive power of windmills on the deck to side-wheels, a correspondent of that paper says the invention is not new, but that the thing was tried as long ago as 1823 or 1824 by Cabel B Burnap, (a nephew of Gov. Brooks of Mass) an ingenious mechanic then residing at Belfast in this State He constructed a miniature wind boat, and made a trial of it in Belfast harbor, in the night time He informed the writer that its power was so great as to draw the string by which he held it, out of his hand, the wind blowing a strong breeze and "dead ahead," it made its way across Belfast Bay, twelve miles to Long Island, where it was found by an early rising fisherman on the next morning, and he, fearing it might be of the torpedo genus, was fain to get a pole to "poke it" before venturing to examine it more closely

We are not informed what became of the invention—but presume it was found impracticable on a large scale

School Teacher Cut to Pieces in Texas.

GREENVILLE HUNT, Co, TEXAS, July 6

A terrible affair took place about eight miles east of this place on the 3d inst, between a school teacher named Moore and a man by the name of Jesse Howard and his four sons

Moore undertook to chastise Howard s son, about 12 years old, for writing indecent language in a young lady s copy book He had struck the boy but four or five blows with a switch, when the boy s brothers came into the school house with clubs, and one of them struck the teacher with a heavy club on the forehead and felled him to the floor The other struck the teacher several times while down, but the teacher recovered himself and got out his pocket knife and drove them out of the house.

But at this juncture the old man, two other sons and two sons-in law arrived and the old man rushed into the house with a large dirk pocket-knife Moore begged Howard to spare his life, telling him he was then nearly dead At this time Moore had a severe contusion on the forehead, and was covered with blood — But Howard, disregarding his entreaties, rushed upon him and plunged his long knife into him twice on his right side, both of which wounds entered the cavity Moore broke from him, when Howard cut him on the right shoulder, making a frightful gash four inches long and to the bone The boys outside threw clubs at him as he ran, one of which hit him

Moore was a young man, of slight make, and in poor health, who had lately come to the State He was a man of unexceptionable character, and a successful teacher He will probably die of his wounds, a victim of revenge so low and despicable that humanity blushes at the recital The antecedents of Howard and his family are in keeping with this act, having been frequently engaged in brutal assaults upon their neighbors, and the family are reported to be guilty of every mean act — Moore had had a difficulty with the same child before and had requested Howard to take him out of school The old woman replied she meant to send the child to devil him, and that if Moore whipped the boy she would make Howard cut his —— heart out.

It is generally supposed that the boy was urged to provoke Moore to chastise him, and no doubt they expected it that morning, for they all arrived at the school house in a few moments after Moore commenced to whip the boy, and the two oldest brothers were secreted close to the house, for they got to the door before Moore had struck the boy six blows The Howards lived half a mile from the school house Such are some of the facts of this horrible affair, as appears from the evidence on examination.

The old man's bail bond was fixed at $4,000, the oldest son's at $2,000 and the other three sons of $250 each. But they have not yet, and probably cannot, give bail The public feeling is against them, which induces me to hope that they will get their deserts.

ENGLISH WEALTH —Some of our New York Fifth Avenue swells make very respectable attempts to do the "palatial" in their houses, and style of living, and put forth ambitious efforts to imitate English country seats, in the possession of what the English would call a "sang box on the Hudson River, and ten, twenty or a hundred acres. An account, before us, of the luxurious style of living among the English aristocracy, throws our parvenu pretenders considerably into the shade

About sixty miles from London is the estate of the Earl of Spencer, which comprises ten thousand acres, divided into parks, meadows, pastures, woods and gardens His library contains fifty thousand volumes, and is said to be the finest private library in the world

The Duke of Richmond's great home farm consists of twenty three thousand acres, or over thirty-five square miles, and this in crowded England, which has in all an area of only 50,000 square miles, or just 32 millions of acres, giving, were the land divided, but two acres to each inhabitant The residence of the Duke is fitted up with oriental magnificence Twenty two race horses stand in his stables, each under the care of a special groom The dishes and plate upon the tables are of porcelain, silver and gold His aviary is supplied with almost every variety of rare and elegant birds, and large herds of cattle, sheep and deer, are spread over the immense lawns

The same authority from which we gather the above facts, says that the Duke of Devonshire a palace at Chatsworth, excels in magnificence any other of the kingdom He spends the whole of his enormous income In the grounds about the house are kept four hundred head of cattle and fourteen hundred deer The kitchen garden contains twelve acres, and is filled with almost every species of fruit and vegetable A vast *arboretum* connected with the establishment is designed to contain a sample of every tree that grows There is also a glass conservatory 387 feet in length, 112 feet in breadth, 67 feet in height, covered by 76 000 square feet of glass, and warmed by seven miles of pipe, conveying hot water One plant was planted by a special messenger, and is valued $10,000 One of the fountains, near the house plays 276 feet high, and to be the highest jet in the world Chatsworth contains 3,500 acres but the duke owns ninety six thousand acres in the county of Derbyshire Within, the entire is one vast receptacle of paintings, sculpture, mosaic work, carved wainscotting, and all the elegance and luxuries within the reach of almost boundless wealth and highly refined taste

Five sixths of the soil in England is divided among scarcely thirty thousand proprietors — There are twenty nine bankers in London whose transactions yearly embrace six or seven hundred millions sterling This is one side of the picture The struggles between capital and labor are fearful—the rich always becoming richer, and the poor poorer Three hundred thousand persons die of famine in a year (!) and three hundred thousand voluntarily emigrate to escape the same dismal doom —*Richmond Dispatch*

'Dead Rabbit Shirts are worn in New York The Philadelphia North American saw one on the back of a rowdy and thus describes it 'The article had a white ground and was embellished all over its surface with prints of dead rabbits hanging by the heels The rabbits were done in vermillion The garment was suggestive, and went to show that our canton printers are wide awake The man who wore it looked like a cross between a 'Plug Ugly and a Hydraulic Ram

If St Paul Times needs to be sharply looked after It tells of an Irishman in that city who was engaged at a drain, and had his pick axe raised in the air just as the town clock struck twelve, when, determined to do no more work, of course he let go the pick and left it hanging there'

Matters in China.

WASHINGTON, Aug. 8.

The Navy Department this morning received a letter from flag officer James Armstrong, dated U S Ship San Jacinto, Hong Kong, May 3d, in which he says—"From the enormous force the English are collecting at this station and the arrangements they are making for a permanency it is clear that China is to be compelled to throw off her exclusiveness.—There will be a total of 60 vessels, mounting 753 guns and accompanying this force are several going hospitals and transport ships, with a large supernumerary medical staff"

Matters in Kansas.

ST LOUIS, Aug 8th.

Advices from Kansas state that Gov Walker evacuated Lawrence on the 3d inst, with all but 30 of the troops The ostensible cause of this is the Indian attack on Fort Riley, which is regarded here as a ruse to get the troops away. The vote in Lawrence on the Topeka constitution was 652 in favor and 200 against. The free State ticket for minor officers has been elected.

North Carolina Election.

NASHVILLE, Aug 8.

The incomplete returns received indicate the election to Congress of 7 or 8 Democrats and 2 Americans The Election of Messrs. Zollicoffer, Ready and Etheridge is doubtful. The new Legislature is Democratic in both its branches. The majority of Harris for Governor is estimated at 10 000

Carrying the United States Mail.

5th and 20th of each Month.

Greatly Reduced Prices 50 lbs. Baggage Free

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city C L BARTLETT, Agent,

Loan to the State of Maine.

TREASURY OFFICE,
Augusta, July 15, 1857

IN accordance with a Resolve of the Legislature, approved April 14, 1857, proposals will be received at this office until the tenth day of August next, for a Loan of thirty thousand dollars, reimbursable in the year 1875, for which bonds of the State will be issued in sums of one thousand dollars each, bearing interest at the rate of six per cent yearly, and payable semi-annually

The bonds will be issued dated July 1, 1857, with coupons attached for the semi annual interest, payable, both principal and interest, at the Treasurer's office in Augusta, and will bear the seal of the State, be signed by the Treasurer, countersigned by the Governor and attested by the Secretary of State

The money on said Loan will be received at this office, the Casco Bank in Portland, or the Suffolk Bank in Boston.

Persons desirous of taking the Loan, or any part of it, not less than one thousand dollars, are requested to send their proposals to the Treasurer of State at Augusta, specifying the amount, and also the premium they will allow in addition to the interest accrued from July 1

Those persons whose proposals may be accepted will be immediately notified

BENJ D PECK, Treasurer of State

Alpine Hair Balm.
—FOR—
Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf, Dandruff, Itching and all diseases of the skin This Balm gives the scalp a new and healthy action, restores the coloring matter to the roots of the Hair, which passes through the Hair and gives it a natural color without the use of Hair Dye

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and all to no use Hair dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use This Balm is not a Dye Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years trial has perfected this Balm It is soothing and emollient, allays all irritation of the scalp thereby stopping that troublesome itching It cures Dandruff, and Scurf, and when the hair has turned gray it will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair dyed. If you examine gray hair that has been colored for a week, you will find, towards the roots, that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color Each hair has a root in the skin, and is of itself a hollow, gray tube, thro' which there is a constant circulation of the pigment from the root When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray To invent a Balm that would produce this pigment has become the study of the proprietor The discovery of the Alpine Hair Balm will do it It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber having purchased the right of making and selling *Davis Patent Bee Hive* for the counties of Penobscot, Lincoln and Sagadahoc which has been received with so much favor and taken the first premiums wherever exhibited has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the needle and feed of the bees—conveniences for the removal of excrement, for the proper separation of the swarms and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights

For Sale, fifty swarms of Bees, with the new hives

For hives individual rights, &c address

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U S. Patent Office, Washington, under the Act of 1837.)

No. 76 State Street, opposite Kilby St., BOSTON

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors

Testimonials

"During the time I occupied the office of Commissioner of Patents, R H EDDY, Esq , of Boston, did business at the Patent Office as Solicitor for procuring Patents—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office and there were none who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE,

Late Commissioner of Patents

[From the present Commissioner]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents R H Eddy, Esq , of Boston has been extensively engaged in the transaction of business with the Office, as a Solicitor He is thoroughly acquainted with the law, and the rules of practice of the office I regard him as one of the most capable and successful practitioners with whom I have had official intercourse CHARLES MASON,

ANTAGONISTIC

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (1827,) Licen tiate of the Hall (1824,) and 28 years Medical Referee, &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility Impotency, and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned DR. CULVERWELL, in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues Its salutary effect is almost instantly felt and it will doubtless at once supersede all other means resorted to, medical surgical or otherwise, to arrest and to cure this awful disease A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by *one* person would, through recommendation, result in an eventual sale to many.

DR. CULVERWELL'S admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice

Full and plain directions for all the different varieties of the complaint accompany Dr Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully Price $2, on the receipt of which it will be forwarded *by mail*, free of postage, to any part of the country Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 158 Grand-St , New York, Sole Agents for the United States and Canada. Nov. 19. d&wly.

Dr. Wesley Grindle's

CELEBRATED

MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption.

Also, an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other means put together. It has *the* greatest sale of any medicine in the world for *Pulmonary Complaints*, from Maine to the most retired dwellings of Oregon, or wherever Consumption is known, it finds its way, carrying health and joy into thousands of families The most eminent physicians have been forced to acknowledge that it *does* cure consumption, and they now use it in their practice as a standard and sure remedy

There is no remedy equal to it in building up a system, that, under the influence of various diseases, hardships, or exposures, has run down or lost its natural tone and vigor Its great secret is in its power to reach the blood, correct the vitiated fluids, and arrest the deposit of tubercle in the lungs, and it is as *safe* as it is *certain* in its action

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask Can your medicine restore a portion of lung that disease has entirely destroyed, leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure If the treatment be commenced in season, but little or no portion of the lung is lost, It is necessary only to *arrest* the disease and when this is done, the concrete substance deposited in the tissues of the lung, technically known as tubercle, becomes absorbed, leaving perhaps, a little calcareous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health But suppose the disease is not arrested at this early stage The softened tubercle produces irritation the irritation brings on inflammation of that part of the lung, the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result, a cavity is formed which enlarges and does its work of death unless the deposit of tubercle is arrested Now, does your remedy effect a cure? *Most assuredly it does* As soon as the disease is arrested the hurtful matter is absorbed or expectorated, and nature either furnishes the cavity with a lining membrane of what is more common where it is of large size, its walls fall together and heal up, leaving a scar and the remaining portion of the respiratory apparatus, true to a law running through the whole physical economy, becomes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost

Prices —One box $3 00, three boxes, ordered at one time, $8,00, half dozen, $14,00, one dozen, or any number greater, at the rate of $2,00 a box

The postage in the United States not over 3000 miles, is fifteen cents a box, over 3000 miles, fifty cents a box In all cases the amount should be inclosed in money or stamps I am responsible for all money sent me by mail

DR SMITH'S

SUGAR COATED PILLS!

Prepared and put up by the

New York College of Health.

The most celebrated Medicine in the World,

Recommended by the principal Physicians in all our Cities, and by all who become acquainted with their merits throughout the world

There are living witnesses, in almost every town, village and hamlet throughout the country, who unhesitatingly say, DR SMITH'S SUGAR COATED PILLS have saved my life

Most of the Hospitals in New York have given these Pills a preference over more than twenty other kinds that have been tested, and many eminent Physicians in the United States use them in their practice

Dr J M STURTEVANT, of Lowville, N Y, a practical physician says "I consider the Sugar Coated Improved Indian Vegetable Pills, as an excellent medicine, and use them in my practice"

Dr McVICAR, of Boonville, Oneida Co , N Y, says "Say to your Agents, I consider them an excellent Pill, and use them in my practice."

If the Blood becomes impure it is traced to stoppage of the natural drains of the system, viz of the bowels—the lungs, kidneys, and skin—The blood and intestines must relieve themselves of all their worn out particles and poisonous humors, which must go through the channels that nature has designed

Dr. Smith's Sugar Coated Pills

Possess this quality to the Fullest Extent

CANKER BALSAM!

To be Valued needs but to be Known

It is its own BEST RECOMMENDATION

But a short time since we were talking with an agent who had formerly sold but little, but had now sold all out He informed me that it had cured his

WIFE'S SORE BREAST,

After which others had tried it, and

EVERYBODY LIKED IT.

A Carpenter in Camden, Maine, afflicted with

CANKER IN THE MOUTH,

tried various remedies, had recourse to physicians, but obtained no relief

His mouth was one complete CANKER SORE The gums swollen and affected TO THE POINT OF SUPPERATION, and CLEAVING OFF FROM THE TEETH

A perfect cure was effected by ONE BOTTLE of

A MEDICINE THAT NEVER DEBILITATES.

DR SANFORD'S

INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purposes of any cathartic without the debilitating effects experienced from most purgatives It acts slowly and gently but surely, moving the bowels to carry off all the secreted matter, at the same time stimulating the *Liver* to a proper performance of its functions.

The Invigorator cures Sick Headache Take one or two teaspoonful at the first attack and it will soon disappear For an overloaded stomach or when food rises or sours, take the Invigorator after eating and it will not prove disagreeable or oppressive For Heartburn Palpitation, or Difficult breathing take a teaspoonful once or twice daily For Loss of Appetite Languor or Listlessness the medicine is invaluable It will restore the appetite and make the food digest well Nightmare take a teaspoonful on retiring, and the demons of dream land will all be fairies After eating a hearty dinner take a dose of Invigorator, and it will relieve all oppression or fullness The Invigorator is a Liver Remedy of unequalled virtue, acting directly on that organ curing Dyspepsia, Jaundice Bilious Attack Dysentery Piles, Worms and all Female Obstructions, for which it has no equal

We know there is nothing now before the American public prepared with such skill by a scientific man particularly for diseases of the Liver as Dr Sanford's Invigorator or Liver Remedy It has attained a reputation second to no other article in the world, simply because it rests on its own merit The evidence all by trial that it is all that its proprietors claim it to be, if any of our readers are suffering from any such diseases as are described in Dr Sanford's advertisement we know of no remedy that will so surely cure them as the Invigorator

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in Diseases of the Liver, Stomach and Digestive organs It came to us with so many testimonials in its favor that we have noted its effects on some of the worst cases of continual debility caused by deranged liver and in every instance the effect was to relieve or give a permanent cure Dr Sanford's Liver Invigorator is what we refer to We always have been credulous about cures by patent medicines but we are convinced that this medicine for timely use is not overrated by the host of recommendations it has Our advice is, for all troubled with Indigestion Debility or Bowel Complaint to get a bottle and try it, our word for it you will be experienced

Blessings to the Invalids who use Dr Sanford's Invigorator for it will relieve them of their pains as soon as it is taken into their stomach Pain and misery cannot exist where the Invigorator is used for it will surely drive them away as daylight will banish darkness,—of this there can be no doubt to those who try it for it carries conviction with every dose taken Another evidence is the thousands of certificates from those who use it or have been cured by it Try one bottle—if it does not benefit them we are mistaken
